

REFEREES

15th October 2014

Tree care WA has been conducting tree works for the Shire of Mundaring since 2012 and was awarded the tender as part of a panel of contractors in early 2013.

In this time Tree Care WA has conducted its operation in a very professional and diligent manor and has adhered to all the requirements of the tender conditions. They have always been punctual and have never let the Shire down when their services have been required.

At no time has the Shire been dissatisfied with their performance and all works have been completed within the allocated time frame. Their attention to detail is exceptional when it comes to pruning works, where aesthetics is the key focus of the finished product.

Tree Care WA has a dedicated staff with a range of experience and knowledge and they are particularly well versed in customer service. This level of experience was heavily drawn upon during the recent bushfires we experienced in the hills, when they were engaged to conduct safety inspections on trees throughout the fire effected areas and subsequently carry out the corresponding works. We received numerous letters and emails of thanks from residents specifically directed at Tree Care for their assistance, professionalism and understanding during such a time.

I would have no hesitation in recommending Tree Care WA for any private, commercial or contractual tree works as their approach to Arboricultural professionalism is to be highly commended.

Should you require any further information in regards to this please feel free to contact me at any time and I will be happy to discuss or answer any queries you may have.

Yours sincerely
