To whom it may concern ,

Letter of Reference

I have been requested by TreeCare Pty Ltd to provide a letter of reference regarding their work while they have held both the current general and powerline pruning tenders for the Shire of Serpentine – Jarrahdale .

I am pleased to advise that TreeCare has supplied the Shire a very cost effective and efficient professional service that , in my experience with the Shire , is second to none .

During their tenure with the Shire they have , in addition to routine works , undertaken numerous difficult and hazardous tree situations that obtained a result in a safe , timely manner that was appreciated by all stakeholders .

In the main , TreeCare has been required to prune to Australian Standards and their knowledge of these Standards and contemporary pruning techniques is a credit to themselves and satisfies current arboricultural requirements .

I am willing to expand further on this reference if required .

Yours truly ,

Peter Lockhart
